Dale Stewart's life has become a shadow of what it once was. A respected college professor and successful novelist, he sabotaged his career and his marriage with an obsessive love affair that ended badly. With darkness closing in on him, Dale decides to return to his boyhood home in Illinois. Drawn by a recurring nightmare that has plagued him since his youth -- and a troubling certainty that something is waiting for him there -- he hopes to exorcise his demons. In the last hours of Halloween, he reaches the outskirts of the dying town of Elm Haven. There, he moves into the abandoned farmhouse that was once the home of his closest boyhood friend, the strange and brilliant Duane McBride, who lost his young life in a grisly "accident" back in the terrible summer of 1960. Hoping to find peace in isolation, he settles in for the long, harsh winter. But Dale is not alone. Soon after he arrives, cryptic messages begin appearing mysteriously on his computer screen while he struggles to work on his novel. He sees black dogs roaming the grounds. And an old enemy has reemerged, a bully who seems as determined to persecute Dale as he was in childhood.

Darwin Minor travels a dangerous road. A Vietnam veteran turned reluctant expert on interpreting the wreckage of fatal accidents, Darwin uses science and instinct to unravel the real causes of unnatural disasters. He is very, very good at his job. His latest case promises to be his most challenging yet. A spate of seemingly random high-speed car accidents has struck the highways of southern California. Each seems to have been staged—yet the participants have all died. Why would anyone commit fraud at the cost of his own life? The deeper Darwin digs, the closer he comes to unmasking an international network specializing in intimidation and murder, whose members will do anything to make sure Darwin soon suffers a deadly accident of his own. "A literary thriller like no other...A hard-charging, edge-of-the-seat tale."—*Milwaukee Journal Sentinel*

"Simmons writes like a hot-rodding angel." — Stephen King An evil legacy comes to life in this classic and ultimately human novel about believable vampires, featuring a brand-new introduction by Dan Simmons. *Children of the Night* will take you to a place that no one knows—yet all of us fear. In a desolate orphanage in post-Communist Romania, a desperately ill infant is given the wrong blood transfusion—and flourishes rather than dies. For immunologist Kate Neuman, the infant's immune system may hold the key to cure cancer and AIDS. Kate adopts the baby and takes him home to the States. But baby Joshua holds a link to an

ancient clan and their legendary leader—Vlad Tsepes, the original Dracula — whose agents kidnap the child. Against impossible odds and vicious enemies — both human and vampire — Kate and her ally, Father Mike O'Rourke, steal into Romania to get her baby back. "A mesmerizing tour through the ghostly, gray tatters of Romania." — Publishers Weekly "Simmons gives a chilling description of post-Ceausescu Romania and neatly ties the vampire legend into political history to create a new and clever twist to the idea of the vampire's craving for blood." — Library Journal "His best novel ever... Toothsome well written." — Kirkus "Brilliant ideas... The most rigorous and interesting scientific rationale for vampirism I've ever seen... You keep turning the pages." — Locus

Once Joe Kurtz needed revenge--and revenge cost him eleven years in Attica prison. Now Kurtz needs a job, and the price is going to be higher. Out of prison, out of touch, Kurtz signs on with the Byron Farino, Don of a Mob family whose son Kurtz had been protecting on the inside. Farino enlists Kurtz's help to track down the Family's missing accountant--a man with too much knowledge of Family business to have on the loose. But someone doesn't want the accountant found--and with enemies inside the Family vying for his throne, and turf warfare just around the corner, Farino needs an outsider like Kurtz to flush out who's really behind this latest affront. As the story twists and turns and the body count rises, Kurtz no longer knows who he can trust. Everyone seems to be after something, from the mob boss's sultry yet dangerous daughter, to a hit man named The Dane, an albino killer who is good with a knife, and a dwarf who is armed to the teeth and hell-bent on revenge. Kurtz has always been an ace investigator. Now he's about to discover that to get at the truth, sometimes you have to go after it--hard.

A real-estate mogul's attempts to build a deluxe Hawaiian resort are undermined by the disappearance of guests, discovery of strange beasts capable of human speech, and volcanic eruptions, as vengeful gods bring their immortal rivalries into the modern world.

A provocative dystopian thriller set in a future that seems scarily possible, Flashback proves why Dan Simmons is one of our most exciting and versatile writers. The United States is near total collapse. But 87% of the population doesn't care: they're addicted to flashback, a drug that allows its users to re-experience the best moments of their lives. After ex-detective Nick Bottom's wife died in a car accident, he went under the flash to be with her; he's lost his job, his teenage son, and his livelihood as a result. Nick may be a lost soul but he's still a good cop, so he is hired to investigate the murder of a top governmental advisor's son. This flashback-addict becomes the one man who may be able to change the course of an entire nation turning away from the future to live in the past.

The "masterfully chilling" novel that inspired the hit AMC series (Entertainment Weekly). The men on board the HMS Terror — part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage — are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. " The best and most unusual historical novel I have read in years.
