Winner of the 2022 Edgar Award for Best Biography An Economist Best Book of 2021 A fresh, innovative biography of the twentieth century's most iconic filmmaker. In *The Twelve Lives of Alfred Hitchcock*, Edward White explores the Hitchcock phenomenon—what defines it, how it was invented, what it reveals about the man at its core, and how its legacy

continues to shape our cultural world. The book's twelve chapters illuminate different aspects of Hitchcock's life and work: "The Boy Who Couldn't Grow Up"; "The Murderer"; "The Auteur"; "The Womanizer"; "The Fat Man"; "The Dandy"; "The Family Man"; "The Voyeur"; "The Entertainer"; "The Pioneer"; "The Londoner"; "The Man of God." Each of these angles reveals something fundamental about the man he was and the mythological creature he has become, presenting not just the life Hitchcock lived but also the various versions of himself that he projected, and those projected on his behalf. From Hitchcock's early work in England to his most celebrated films, White astutely analyzes Hitchcock's oeuvre and provides new interpretations. He also delves into

Hitchcock's ideas about gender; his complicated relationships with "his women"—not only Grace Kelly and Tippi Hedren but also his female audiences—as well as leading men such as Cary Grant, and writes movingly of Hitchcock's devotion to his wife and lifelong companion, Alma, who made vital contributions to numerous classic Hitchcock films, and burnished his mythology. And White is trenchant in his assessment of the Hitchcock persona, so carefully created that Hitchcock became not only a figurehead for his own industry but nothing less than a cultural icon. Ultimately, White's portrayal illuminates a vital truth: Hitchcock was more than a Hollywood titan; he was the definitive modern artist, and his significance reaches far beyond the confines of cinema.

Alfred Hitchcock: A Life in Darkness and Light is the definitive biography of the Master of Suspense and the most widely recognized film director of all time. In a career that spanned six decades and produced more than 60 films – including *The 39 Steps*, *Vertigo*, *Psycho*, and *The Birds* – Alfred Hitchcock set new standards for cinematic invention and storytelling. Acclaimed biographer Patrick McGilligan re-examines his life and extraordinary work, challenging perceptions of Hitchcock as the “macabre Englishman” and sexual obsessive, and reveals instead the ingenious craftsman, trickster, provocateur, and romantic. With insights into his relationships with Hollywood legends – such as Cary Grant, James Stewart, Ingrid

Bergman, and Grace Kelly – as well as his 54-year marriage to Alma Reville and his inspirations in the thriller genre, the book is full of the same dark humor, cliffhanger suspense, and revelations that are synonymous with one of the most famous and misunderstood figures in cinema.

One of cinema's greatest directors, a virtuoso visual artist, and a genius of the suspense genre, Alfred Hitchcock (1899–1980) is universally known for such masterpieces as *Strangers on a Train*, *Rear Window*, *Vertigo*, *North by Northwest*, *Psycho*, and *The Birds*. John Russell Taylor, a distinguished film critic and friend of Hitchcock's, enjoyed his full cooperation. Based on numerous interviews, with photos from the private family albums, and an in-depth study of the making of his last

And Light film, this biography of the director is as intriguing, revealing, perverse, and entertaining as any Hitchcock classic.

Alfred Hitchcock rigorously controlled his public image, drawing certain carefully selected childhood anecdotes into full focus and blurring out all others. In this gripping short biography, Peter Ackroyd wrests the director's chair back from the master of control to reveal a lugubriously jolly man fond of practical jokes, who smashed a once-used tea cup every morning to remind himself of the frailty of life. Iconic film stars make cameo appearances throughout Hitchcock's story, just as the director did in his own films: Grace Kelly, Cary Grant, James Stewart and, perhaps most famously of all, Tippi Hedren, who endures cuts and bruises from a fearsome flock of

This is the definitive life story of Alfred Hitchcock, the enigmatic and intensely private director of Psycho, Vertigo, Rear Window, The Birds, and more than forty other films. While setting forth every stage of Hitchcock's long life and brilliant career, Donald Spoto also explores the roots of the director's obsessions with blondes, food, murder, and idealized love—and he traces the incomparable, bizarre genius from Hitchcock's English childhood through the golden years of his career in America as one of the greatest directors in the history of filmmaking.

“The trouble today is that we don’t torture women enough.” —Alfred Hitchcock It is remarkable how infrequently, over a period of more than fifty years, Alfred Hitchcock spoke about the beautiful, legendary and talented actresses he directed. And when he did, his remarks were mostly indifferent and often hostile. But his leading ladies greatly enriched his films, even as many of them achieved international stardom precisely because of their work for Hitchcock—among the dozens of women were Madeleine Carroll, Joan Fontaine, Grace Kelly and Tippi Hedren. Yet he maintained a stony, insistent silence about the quality of their performances and their contributions to his art. Spellbound by

Beauty—the final volume in master biographer Donald Spoto's Hitchcock trilogy that began with *The Art of Alfred Hitchcock* and continued with *The Dark Side of Genius: The Life of Alfred Hitchcock*—is the fascinating, complex and finally tragic story of the great moviemaker and his female stars, the unusual ideas of sex and romance that inform his films and the Hollywood dreams that often became nightmares. Rich with fresh revelations based on previously undisclosed tapes, new interviews, private correspondence and personal papers made available only to the author, this thoughtful, compassionate yet explosive portrait details Hitchcock's outbursts of cruelty, the shocking humor and the odd amalgam of adoration and contempt that time and again characterized Hitchcock's

obsessive relationships with women—and that also, paradoxically, fed his genius. He insisted, for example, that Madeleine Carroll submit herself to painful physical demands during the making of *The 39 Steps*. He harbored a poignantly unrequited love for Ingrid Bergman. He meticulously and deliberately constructed Grace Kelly's image. Finally, he stalked, harassed and abused Tippi Hedren. His treatment of his daughter, Pat, was certainly unusual, while his strange marriage to his sometime collaborator Alma Reville was a union that (according to Hitchcock himself) was forever chaste after one incident. *Spellbound by Beauty* offers important insights into the life of a brilliant, powerful, eccentric and tortured artist, and it corrects a major gap in movie history by paying
