How senior leaders can re-connect to the emerging leaders hidden in their organizations A sea change has taken place throughout the culture of leadership; today's emerging leaders are "opting out" of the same positions their predecessors coveted in years past. But many senior managers trained in traditional leadership still hang onto outdated approaches of command and control despite how much they've heard about "empowerment" and inclusion. At the core of this book is the fictional suspense story of Brookreme Corporation, whose leaders are challenged to chart a course to a global future, navigating relational land mines along the way. With both story telling and hard research, Leadership Divided reconnects generations and instructs both senior and emerging leaders on how the relationships of the future will be the path to revolutionary performance. Ron A. Carucci (Seattle, WA) is a founding partner with Passages Consulting, LLC, where he works with CEOs and senior executives in pursuit of profound organizational change and executive leadership capability. He is Graduate Professor of Leadership at Mars Hill Graduate School in Seattle. He is also faculty member at Fordham University, serving as Associate Professor of Organizational Behavior, and has served as an adjunct at the Center for Creative Leadership. Jace Jamison is every woman's fantasy. He's a mysterious businessman willing to sweep you off your feet, a tattooed bad boy from the wrong side of the tracks, and a sexy friend you want to take that next step with. Jace is everything and anything you want him to be. He's a highly paid escort. But nobody knows who Jace really is; the man whose dad abandoned him, whose brother was killed, and who had to take care of his mom at a young age. At the age of nineteen, he was living in Sin City, ready for a life away from stress and struggle. Adrienne has been having a sexual drought since she broke up with her boyfriend. Even then she wasn't getting fully satisfied. Being an event planner, she's constantly working at numerous events. Several times she's seen a man she can only refer to as the God-like creature at her work functions. He's devastatingly handsome, tall, and has beautiful eyes, but he's always with a different woman. The last thing she needs is another player in her life. After a few chance encounters with Jace, her best friend convinces her to just get some good sex out of him and not worry about who she's seen him with. But what happens when she finds out that he isn't dating these women because he wants to, but because he's paid to? Keeping his job a secret from Adrienne seems easy at first, but when she begins meeting people he knows in his escort life, and they begin getting closer, he knows he has to tell her before someone else does. When their worlds entwine, and confessions are made, will they be able to work through it? Will she be able to push aside his sins and focus on the good in him? Will Jace get what he's never had? A woman who wants him despite what he's done. Or will living in sin cost him what he never knew he wanted?

What remains of the colours of our childhood? What are our memories of a blue rabbit, a red dress, a yellow bike? Were they really those colours? And later on, what colours do we associate with our student years, our first loves, our adult life? How does colour leave its mark on memory? How does it stimulate memory? How does it transform it? Or, to reverse that question, how does colour become the victim of memory's whims and lapses? In an attempt to reply to these questions - and to many others - Michel Pastoureau presents us with a journal about colours that covers over half a century (1950-2010). Through personal memories, notes taken on the spot, uninhibited comments, scholarly digressions and the remarks of a professional historian, this book retraces the recent history of colours in France and Europe. Among the fields of observation that are covered or evoked are the vocabulary and data of language, fashion and clothing, everyday objects and practices, emblems and flags, sport, literature, painting, museums and the history of art. This text - playful, poetic, nostalgic - records the life of both the author and his contemporaries. We live in a world increasingly bursting with colour, in which colour remains a focus for memory, a source of delight and, most of all, an invitation to dream.

traditional management playbook is full of outdated, counterproductive practices, and he reveals how the alternative management revolution has already started at companies like Netflix, Zappos, Google, and others. Burkus investigates behind their office doors to show how these companies are reevaluating and reinventing the most basic management principles, like hiring, firing, vacation policy, and even office floor plan, and enhancing their business's success as a result. Is your company ready for a radical departure from twentieth-century management standards? David Burkus has collected the stories of dozens of companies that are standing the old rules on their heads. Even better, Burkus shows how you can do it, too. Daniel H. Despair is always described as dull, writes Daphne Merkin, when the truth is that despair has a light all its own, a lunar glow, the color of mottled silver. This *Close to Happy* Merkin's rare, vividly personal account of what it feels like to suffer from clinical depression captures this strange light. Daphne Merkin has been hospitalized three times: first, in grade school, for childhood depression; years later, after her daughter was born, for severe postpartum depression; and later still, after her mother died, for obsessive suicidal thinking. Recounting this series of hospitalizations, as well as her visits to myriad therapists and psychopharmacologists, Merkin fearlessly offers what the child psychiatrist Harold Koplewicz calls the inside view of navigating a chronic

psychiatric illness to a realistic outcome. The arc of Merkin's affliction is lifelong, beginning in a childhood largely bereft of love and stretching into the present, where Merkin lives a high-functioning life and her depression is manageable, if not cured. The opposite of depression, she writes with characteristic insight, is not a state of unimaginable happiness . . . but a state of relative all-right-ness. In this dark yet vital memoir, Merkin describes not only the harrowing sorrow that she has known all her life, but also her early, redemptive love of reading and gradual emergence as a writer. Written with an acute understanding of the ways in which her condition has evolved as well as affected those around her, *This Close to Happy* is an utterly candid coming-to-terms with an illness that many share but few talk about, one that remains shrouded in stigma. In the words of the distinguished psychologist Carol Gilligan, It brings a stunningly perceptive voice into the forefront of the conversation about depression, one that is both reassuring and revelatory.

As the first decade of the 21st century inches toward a close, the most urgent and persistent questions facing organizations appear to be a more acute version of those that trouble organizations in the final decade of the last century. They all come down to this: How do we maximize human endeavor? Grappling with epidemic talent defection and escalating turnover costs, the inability to develop leaders fast enough, straining to eek out greater performance with fewer resources, building cultures that welcome diverse views to maximize innovation, struggling to be hospitable to ever diversifying demographics, generational values conflicts...and all in the center spotlight in a global stage, enterprise leaders are desperate for answers. Perhaps it's time to change the questions. Organizations have gorged on a revolving door of

fads to contend with these perplexing challenges and are desperately hunting for the silver bullet that unlocks the mystery of how to let loose the power and passion of human potential. With a future hurling at us at great speed and with impressive force and uncertainty, perhaps it's time to turn from our fixation with tips and techniques? In *Future in-Formation: Choosing a Generative Organizational Life*, more fundamental and transformative questions are explored...ones that have been shown to truly unleash the greatest levels of passion and performance from people organized around any human endeavor. Moving away from quick-fix easy answers toward a holistic set of questions, *Passages Consulting* explores the deepest questions communities and their members have always asked that have led to the breakthroughs and zeal every leader hopes to discover in themselves and those they lead. *Future in-Formation* will astound you, surprise you, inspire you, and ultimately enable you to build a generative organizational life for those with whom you lead...and unlock levels of perormanode, passion, and purpose you've never imagined possible. Ron and Josh's insightful grasp and articulation of what they aptly name "generative leadership" is desperately needed in today's business climate. Their work is an inviting oasis within today's corporate world where relational "heart and soul" are all too often sacrificed on the altar of short term "efficiency." If you're a leader aiming to creating enduring greatness within your organization, you must engage in the truth Ron & Josh unfold in this book! Peter Ash, CEO, NDG Financial Corporation Ron Carucci and Josh Epperson's thought provoking book provides a blueprint for leading and becoming a positive force within our own lives and within our organizations. A cautionary note: the tasks proposed in this book are not for the weak. *Future in-Formation* first invites the reader to think along with the authors, but then presents a

series of challenging questions which can only be answered through hard work and soul searching. Having watched Ron Carucci and Josh Epperson at work, I am convinced that the readers' own unique answers to these questions can transform those who have the courage to face them. In this second adventure, Troy has been behaving very strangely. The others find out that he is really a unicorn prince. Now that his secret is out, Troy thinks they only want to be his friend because he is royal. Willow tries to reassure him that he is still the same old Troy to them and sets out to prove that being a loyal friend is more important than where you come from.

"In my travels throughout this country, I have discovered a glaring truth: America's boys are absolutely desperate to talk about their lives," says Dr. William Pollack, author of the bestseller *Real Boys*. Now, in *Real Boys' Voices*, Pollack lets us hear what boys today are saying, even as he explores ways to get them to talk more openly with us. "Boys long to talk about the things that are hurting them—their harassment from other boys, their troubled relationships with their fathers, their embarrassment around girls and confusion about sex, their disconnection from and love for their parents, the violence that haunts them at school and on the street, their

constant fear that they might not be as masculine as other boys." In *Real Boys' Voices* we hear, verbatim, what boys from big cities and small towns, including Littleton, Colorado, have to say about violence, drugs, sports, school, parents, love, anger, body image, becoming a man, and much, much more. *Real Boys' Voices* takes us into the daily worlds of boys not only to show how society's outdated expectations force them to mask many of their true emotions, but also to let us hear how boys themselves describe their isolation, depression, longing, love, and hope. How can you get behind the mask of masculinity many boys wear? How can you tell whether a "bad boy" is actually a "sad boy"—and how do you spot the danger signals of depression? How can you grow closer to the boy you love? Pollack explores how to create safe spaces and engage in "action talk," how to listen so a boy will speak the truth about, and be, himself. In the real boys' voices here, boys speak eloquently and truthfully about such topics as shame, bullying and teasing, the pressure to fit in, addictions, how they see the lives of the men they know, the importance of their mothers and fathers, their own spiritual and creative experiences, friendships with other boys and with girls, being gay, and coping with divorce and other losses, including the death of a friend or parent. We also hear what boys from Columbine High School and other places say about fear and violence in their lives. Full of insights from and about young and adolescent boys, William Pollack's *Real Boys' Voices* is an important, illuminating, and invaluable book, for boys themselves and for all the people in their lives. From *Real Boys' Voices* " Boys are supposed to shut up and take it, to keep it all in." "Scotty, from a small town in New England " What I hate about this school is that I am being picked on in the halls and just about everywhere else." "Cody, from a suburb in New England " Sometimes people say there are two me's, like I have a dual personality. . . . The public

Just try to get away from that situation before it actually explodes." □Paul, from a suburb in the West " Maybe a couple of times I used to bully some kids. I haven't bullied anyone since the shooting. I try to be nicer to people even if I don't like them." □John, from Littleton, Colorado
