Duck should be stored in the fridge as soon as you get it home. Take off all the wrappings, then wipe it all over (and inside the cavities) with kitchen paper. Put the duck on a tray or a plate wide and deep enough to contain any blood or juice that might seep out. Cover loosely with foil.

**Duck - BBC Good Food**

The whole bird can either be left in its packaging, placed on a tray or dish and then left in the fridge to defrost, or the packaging can be removed. If the packaging is removed, the bird must be covered with cling film and placed in a shallow tin in order to catch the juices that will leak from the bird as the poultry thaws.
