Here are a few ways that Jiu-Jitsu gives your brain a mental boost: 1. Endorphin release. After any physical activity, including Jiu-Jitsu, your brain releases feel-good chemicals. These endorphins help us feel less pain and regulate mood. The overall result of being physically active on the mat is that you feel better.

I just finished reading “Jiu-Jitsu on the Brain” by Mark Johnson and must say that I enjoyed it greatly. I buy a lot of books on Amazon and almost never write reviews but felt that this book was deserving. I’ve only been doing Jiu-Jitsu for two months but I’m hooked. I’m constantly watching videos on YouTube but this was my first Jiu-Jitsu book.

Jiu-Jitsu on the Brain Quotes Showing 1-5 of 5 "After jiu-jitsu, you will appreciate how well the body works without our even realizing or recognizing it. You will, however, have some insight into its extraordinariness when you have trouble wiping your bum because it hurts to straighten your arm.

**Jiu-Jitsu on the Brain Quotes** by Mark Johnson

Of course jiu jitsu causes brain damage and so does wrestling, whenever you get thrown or accidently hit in the head during grappling your brain gets rattled. Hence the true stereotype that all jocks are STUPID> the best self defense is weight lifting and a sharp ring on your middle finger.

**How dangerous is brazilian jiu-jitsu?—Neurology—MedHelp**

In a typical BJJ class you will learn new techniques and apply them on both willing and unwilling partners. When you are learning new moves and techniques you are forced to coordinate your mind and body as one highly functioning unit. This increases focus, brain function, problem solving skills, and mental clarity.
