Conflict abounds in the church of Jesus Christ. Reconciliation within the body, however, will not happen with the right 'method' or 'set of principles.' In Making Peace, readers are challenged to place their church and all of its dissension under the Lordship of Jesus Christ.

If church is like a family, it fights like one too! As in any family, conflict in the church family is natural and inevitable. But the way the church family handles its fights can make or break ministry. By using stories and examples of real problems at actual churches, Cosgrove and Hatfield have applied family-systems theory to help us identify the hidden structural boundaries in any group relationship. They show how the dynamics and 'family rules' operating in the informal family-like church system powerfully influence how church members relate to each other.

You love your work. You love the people--most of the time. They respect you, most of the time. You work together with colleagues, staff, and laity, with energy and enthusiasm, most of the time. But then something goes wrong: a word spoken in anger, a misunderstanding, and things turn sour. What do you do? How do you deal with conflict, whether it be long or short-term, low or high intensity? Conflict is a part of the human predicament, yet it need not define or control your ministry. This book is designed to help the reader ask certain key questions about the nature and scope of the conflict they are experiencing and, based on the answers to those questions, move beyond conflict. Congregations cannot exist without finances, priorities, leadership, worship, and decision making, yet these five aspects breed the most conflict between church members and clergy. These conflicts unfortunately tend to bring about the most negative consequences: drops in giving, resignation of leaders, and, perhaps most pointedly, loss of members. The importance of congregations and their effect on our lives is clear, yet what is less clear is what makes conflicts in faith communities inevitable. In Promise and Peril: Understanding and Managing Change and Conflict in Congregations, David Brubaker brings the tools of organizational theory and research to the task of understanding the deeper dynamics of congregational conflict. With a doctorate in sociology and more than twenty years working with congregational conflicts, Brubaker helps to explore the causes and effects of conflicts on a wide range of congregations. This book will help congregations avoid the pitfalls of conflict and instead head toward a healthy relationship between and among church staff and members.

Drawing on years of experience helping conflicted congregations, Speed B. Leas helps readers to assess their conflict response and discover options appropriate to different levels of conflict. This new edition contains an improved Conflict Strategy Instrument, revised to reflect new learnings and more accurately describe your conflict management style.

In Navigating Church Politics, veteran pastor and church leadership expert, Dr. Randy Wolff, explores one church's productive, yet painful, direction-setting process. Through an in-depth look at this church's journey and a study of relevant research, he will help you discover: How to recognize and address inappropriate uses of power without sinking the church. How to help people focus on their God-given calling so that they don't have the desire to torpedo others. How to make the most of good uses of power to avoid danger and accomplish the church's mission. How to empower people to contribute their ideas to the decision-making process, so that good decisions are made that people own and want to implement together. How to manage conflict so that it strengthens the church. Many church leaders have faced the unwelcome intrusion of church politics into their ministries. It can be very distracting and frustrating. Yet, Randy shows that church politics is a normal and necessary part of church life. Wherever you have a group of people, you will have good and bad exertions of power. Unfortunately, many Christian leaders check out of leadership, not realizing that the church politics that hurt them could have become one of their greatest allies for enacting positive change. Why do many Christian leaders fall prey to the dark side of church politics? Leaders are often ill-equipped to use and help others use power in ways that are of maximum
