An industrial policy which guarantees independent access to space with Ariane 6 and enables France to maintain its technological lead in the satellite field, especially for telecommunications and space observation – amid heightened international competition. To that end, French stakeholders across the board are rallying round the Government, the National Space Agency (CNES) and Airbus Safran Launchers and Arianespace manufacturers, to ensure the success of the Ariane 6 programme, with the ...

The interest in national space legislation, and the importance thereof to regulating space activities conducted by private entities, gives a clear incentive to conduct a comparative analysis of the national space legislation of various states. The purpose of this report is to provide such a comparative analysis that will detail the similarities and differences between the national space laws of selected states with a focus on European comprehensive national space legislation.
