"The first comprehensive book to cover both raw and home-cooked diets specifically for dogs, written by an expert in dog food research and development"--Provided by publisher.

Ancestors and canine cousins of our dogs didn't eat "krunchy kibble" or "meat 'n gravy in a can." They ate what they found or caught... and it wasn't cooked or "enriched" either! It was high in protein, with balanced fats, and usually included a few fruits, vegetables and grasses. Steve Brown, an expert on canine nutrition, shows how you can bring the benefits of the canine ancestral diet to your dog by feeding him differently as little as just one day a week. And no, you won't need to lead a pack of dogs on a hunting expedition! Just follow Steve's well-researched and easy to follow ABCs to make improvements to whatever your dog currently eats. BONUS! Raw food or home prepared feeders will learn how to balance nutrients more precisely, especially fats, for optimum health. A dog diet to get wild about! • Learn about the latest research on the importance of protein and healthy fats in your dog's diet. • Find out why commercial foods can't include these fragile-but-crucial nutrients, and how you can make sure your dog gets them. • Just one day a week, or more frequently if you choose, follow the simple recipes that balance the nutrition in the commercial food you are feeding—wet or dry!

Raw dog food diets are controversial. But the popularity of the diet which uses raw meat, bones, fruits, and vegetables is rising. Dog owners want to be sure that their canine companions to ensure that they are healthy, happy, and live longer. The first step in achieving that goal is feeding your dog a balanced, nutritious diet. Historically, dry dog kibble and canned dog food were the only options on the market. But over the years, raw food diets have become increasingly popular. Racing greyhounds and other dogs have long eaten raw food diets. Extending these feeding practices to the family pet is a more recent idea, first introduced in 1993 by author Ian Billinghurst. He called his feeding method the BARF diet, an acronym for Bones and Raw Food, or Biologically Appropriate Raw Food.
