Soon to be a Major Motion Picture National Book Award Finalist-Fiction In the aftermath of the Civil War, an aging itinerant news reader agrees to transport a young captive of the Kiowa back to her people in this exquisitely rendered, morally complex, multilayered novel of historical fiction from the author of Enemy Women that explores the boundaries of family, responsibility, honor, and trust. In the wake of the Civil War, Captain Jefferson Kyle Kidd travels through northern Texas, giving live readings from newspapers to paying audiences hungry for news of the world. An elderly widower who has lived through three wars and fought in two of them, the captain enjoys his rootless, solitary existence. In Wichita Falls, he is offered a \$50 gold piece to deliver a young orphan to her relatives in San Antonio. Four years earlier, a band of Kiowa raiders killed Johanna's parents and sister; sparing the little girl, they raised her as one of their own. Recently rescued by the U.S. army, the ten-year-old has once again been torn away from the only home she knows. Their 400-mile journey south through unsettled territory and unforgiving terrain proves difficult and at times dangerous. Johanna has forgotten the English language, tries to escape at every opportunity, throws away her shoes, and refuses to act "civilized." Yet as the miles pass, the two lonely survivors tentatively begin to trust each other, forming a bond that marks the difference between life and death in this treacherous land. Arriving in San Antonio, the reunion is neither happy nor welcome. The captain must hand Johanna over to an aunt and uncle she does not remember—strangers who regard her as an unwanted burden. A respectable man, Captain Kidd is faced with a terrible choice: abandon the girl to her fate or become—in the eyes of the law—a kidnapper himself.

First garnering both dismissal and intrigue as "Grand Theft Horse," Rockstar Games' 2010 action-adventure Red Dead Redemption was met on its release with critical acclaim for its open-world gameplay, its immersive environments, and its authenticity to the experience of the Wild West. Well, the simulated Wild West, that is. Boss Fight invites you to find out how the West was created, sold, and marketed to readers, moviegoers, and gamers as a space where "freedom" and "progress" duel for control of the dry, punishing frontier. Join writer and scholar Matt Margini as he journeys across the broad and expansive genre known as the Western, tracing the lineage of the familiar self-sufficient loner cowboy from prototypes like Buffalo Bill, through golden age icons like John Wayne and antiheroes like Clint Eastwood's "Man with No Name," up to Red Dead's John Marston. With a critical reading of Red Dead's narrative, setting, and gameplay through the lens of the rich and ever-shifting genre of the Western, Margini reveals its connections to a long legacy of mythmaking that has colored not only the stories we love to consume, but the histories we tell about America.

Finalist for the 2018 National Book Award for Nonfiction A New York Times Editors' Choice Selection The untold story of Hamilton's—and Burr's—personal physician, whose dream to build America's first botanical garden inspired the young Republic. On a clear morning in July 1804, Alexander Hamilton stepped onto a boat at the edge of the Hudson River. He was bound for a New Jersey dueling ground to settle his bitter dispute with Aaron Burr. Hamilton took just two men with him: his "second" for the duel, and Dr. David Hosack. As historian Victoria Johnson reveals in her groundbreaking biography, Hosack was one of the few points the duellists did agree on. Summoned that morning because of his role as the beloved Hamilton family doctor, he was also a close friend of Burr. A brilliant surgeon and a world-class botanist, Hosack—who until now has been lost in the fog of history—was a pioneering thinker who shaped a young nation. Born in New York City, he was educated in Europe and returned to America inspired by his newfound knowledge. He assembled a plant collection so spectacular and diverse that it amazes botanists today, conducted some of the first pharmaceutical research in the United States, and introduced new surgeries to American. His tireless work championing public health and science earned him national fame and praise from the likes of Thomas Jefferson, James Madison, Alexander von Humboldt, and the Marquis de Lafayette. One goal drove Hosack above all others: to build the Republic's first botanical garden. Despite innumerable obstacles and near-constant resistance, Hosack triumphed when, by 1810, his Elgin Botanic Garden at last crowned twenty acres of Manhattan farmland. "Where others saw real estate and power, Hosack saw the landscape as a pharmacopeia able to bring medicine into the modern age" (Eric W. Sanderson, author of Manhattan). Today what remains of America's first botanical garden lies in the heart of midtown, buried beneath Rockefeller Center. Whether collecting specimens along the banks of the Hudson River, lecturing before a class of rapt medical students, or breaking the fever of a young Philip Hamilton, David Hosack was an American visionary who has been too long forgotten. Alongside other towering figures of the post-Revolutionary generation, he took the reins of a nation. In unearthing the dramatic story of his life, Johnson offers a lush depiction of the man who gave a new voice to the powers and perils of nature.
