Save Your Hearing Now eBook by Marie Moneysmith ...

If your deductible is \$1,000 a year, and you've met that amount, and then if your plan covers 80 percent of the cost of hearing aids, you would be responsible for the remaining 20%. In this example, if you were purchasing a pair of hearing aids for \$4,000, your insurance plan would cover \$3,200 of the cost, and you would be responsible for the remaining \$800.

5 Ways to Save on Hearing Aids Now - Associated Audiologists

6. Protect your head. Skull fractures and head injuries are common causes for inner ear hearing loss, so it's important to wear proper head gear when necessary. Wearing a helmet when biking, avoiding sports where concussions are common, and using protective gear at construction sites or other dangerous environments can help save your ears and more. 7.

Four Steps to Save Your Hearing Now

Get plenty of exercise. Cardio exercise like walking, running or cycling helps to improve blood flow to your ears, which is good for your hearing. It's even better if you can do your exercise somewhere nice and quiet, like the woods or a secluded beach, as this also gives your ears a break from the hustle and bustle of daily life. Get your hearing checked . If you are having any trouble with your hearing or are experiencing ear pain, it's a good idea to see your GP.
