Code 113  
If fault code 5688 was generated at the same time, there may be a fault in the engine control unit. If this DTC was generated, and DTC 5688 is not, it is possible that there is a fault in the wiring.

Notes: As a result of a fault, the injection of

# Where To Download

the reagent is turned off. Fault codes are generated based on information from the SCR control unit.
