Union on the EU's accession to the European Convention on Human Rights have resulted in a Draft Accession Agreement. This will allow the EU to accede to the Convention within the next couple of years. As a consequence, the Union will become subject to the external judicial supervision of an international treaty regime. Individuals will also be entitled to submit applications against the Union, alleging that their fundamental rights have been violated by legal acts rooted in EU law, directly to the Strasbourg Court. As the first comprehensive monograph on this topic, this book examines the concerns for the EU's legal system in relation to accession and the question of whether and how accession and the system of human rights protection under the Convention can be effectively reconciled with the autonomy of EU law. It also takes into account how this objective can be attained without jeopardising the current system of individual human rights protection under the Convention. The main chapters deal with the legal status and rank of the Convention and the Accession Agreement within Union law after accession; the external review of EU law by Strasbourg and the potential subordination of the Luxembourg Court; the future of individual applications and the so-called co-respondent mechanism; the legal arrangement of inter-party cases after accession and the presumable clash of jurisdictions between Strasbourg and Luxembourg; and the interplay between the Convention's subsidiarity principle (the exhaustion of local remedies) and the prior involvement of the Luxembourg Court in EU-related cases. The analysis presented in this book comes at a crucial point in the history of European human rights law, offering a holistic and detailed enquiry into the EU's accession to the ECHR and how this move can be reconciled with the autonomy of EU law.

Article 6 of the Treaty on European Union (TEU) provides that the EU will accede to the system of human rights protection of the European Convention on Human Rights (ECHR). Protocol No 9 in the Treaty of Lisbon opens the way for accession. This represents a major change in the relationship between two organisations that have co-operated closely in the past, though the ECHR has hitherto exercised only an indirect constitutional control over the EU legal order through scrutiny of EU Member States. The accession of the EU to the ECHR is expected to put an end to the informal dialogue, and allegedly also competition between the two regimes in Europe and to establish formal (both normative and institutional) hierarchies. In this new era, some old problems will be solved and new ones will appear. Questions of autonomy and independence, of attribution and allocation of responsibility, of co-operation, and legal pluralism will all arise, with consequences for the protection of human rights in Europe. This book seeks to understand how relations between the two organisations are likely to evolve after accession, and whether this new model will bring more coherence in European human rights protection. The book analyses from several different, yet interconnected, points of view and relevant practice the draft Accession Agreement, shedding light on future developments in the ECHR and beyond. Contributions in the book span classic public international law, EU law and the law of the ECHR, and are written by a mix of legal and non-legal experts from academia and practice.

Turkey's accession to the European Union is undoubtedly one of the Union's most contested potential enlargements. The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey, the Kurdish question and the continuing stalemate concerning northern Cyprus. This book looks at these issues, but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet. Whilst there are several questions that Turkey must address, particularly in the area of human rights guarantees, the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey. Turkey's EU experience also raises fundamental questions about religion and the EU project that have greater implication than simply Turkish accession. Through the lens of the Turkish example, this book addresses these broader questions, such as the nature of European 'identity', Europe's Christian past, the limits of pluralism and the fundamental question of religion in the European public sphere. This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level. It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey.

Since its formation the European Union has expanded beyond all expectations, and this expansion seems set to continue as more countries seek accession and the scope of EU law expands, touching more and more aspects of its citizens' lives. The EU has never been stronger and yet it now appears to be reaching a crisis point, beset on all sides by conflict and challenges to its legitimacy. Nationalist sentiment is on the rise and the Eurozone crisis has had a deep and lasting impact. EU law, always controversial, continues to perplex, not least because it remains difficult to analyse. What is the EU? An international organization, or a federation? Should its legal concepts be measured against national standards, or another norm? The Oxford Handbook of European Union Law illuminates the richness and complexity of the debates surrounding the law and policies of the EU. Comprising eight sections, it examines how we are to conceptualize EU law; the architecture of EU law; making and administering EU law; the economic constitution and the citizen; regulation of the market place; economic, monetary, and fiscal union; the Area of Freedom, Security, and Justice; and what lies beyond the regulatory state. Each chapter summarizes, analyses, and reflects on the state of play in a given area, and suggests how it is likely to develop in the foreseeable future. Written by an international team of leading commentators, this Oxford Handbook creates a vivid and provocative tapestry of the key issues shaping the laws of the European Union.

Turkish accession to the European Union is an important but controversial item on the agenda of the European Union. By focusing on the various domestic sources that drive Turkish politics, this comprehensive study of both classic and new topics supported by fresh, new insights fills a void in the current literature on Turkey-EU relations. This volume is a comprehensive, state of the art study of domestic politics and policies and their role in Turkey's EU accession. Contributions are obtained from established scholars, acknowledged for their expertise in their respective fields. The content is structured along issues, dynamics, actors and policies that drive Turkish politics and it provides an integrated assessment of the dynamics in Turkey-EU relations to general readers, students and specialists in EU Enlargement and Turkish politics alike. Original contributions to 'classic' topics such as the customs union, human rights, military, civil society, public and elite opinion, political parties and the Kurdish issue are made by assessing the domestic sources of recent developments during the negotiations period. In addition, 'new' topics are included that previously have not been covered or analyzed in volumes on Turkish-EU relations such as the Alevi issue, European Turks, corruption in Turkey, and Turkish parliamentary elite opinion on Turkey and the EU. This book was published as a special issue of South European Society and Politics.

This book examines the politics of EU accession; by assessing the experiences of the newly-democratised and acceded Czech Republic, Hungary, Poland and Slovakia, and the challenges that Turkey faces.
