The Object Stares Back On

Elkins takes off from this familiar phenomenological point, and goes on to explore some of the ways in which vision expects the visible, a world that is not just there to be seen, but that responds to our glances, "stares back." In a sense, Elkins reminds us, our eyes aren't ours.

Table of Contents: The object stares back

Lacan sees this as the site of the gaze, or the point in the painting at which the object looks back at the spectator and invites participation (similar to Foucault’s reading of “Las Meninas”).

gaze | The Chicago School of Media Theory

He sometimes overstates his case, as when he lamely argues that we exist in ""a world full of gazes"" because ""each object has a certain force, a certain way of resisting or accepting my look and...

Nonfiction Book Review: Object Stares Back by James Elkins ...

The world is full of objects that catch our eye, and that seem to have eyes of their own. The sun is an eye, perhaps the most powerful of all. It sees us as much as we see it, and when we stare at it, the sun stares back."

The Object Stares Back: On the Nature of Seeing by James ...

The Object Stares Back. On the Nature of Seeing. by James Elkins. ISBN: 0156004976. There is no such thing as “just looking”; Elkins argues persuasively that seeing is more complicated than that. As an art historian with a willingness to explore not only the metaphorical but biological underpinnings of vision, he’s in a position to know.

The Object Stares Back | reading notes

A thoughtful study on how our eyes function with our brains examines the irrational elements of physical sight and concludes that human seeing transforms both the viewer and the object being viewed. Additional information
