Working With Images: The Art of Art Therapists is an effort to give voice to the artist aspect of our identity as art therapists. This book is about how the artists work, how they learned to do it, why they do it. This book will give you glimpses of the memories, and perhaps the scars, of the artists. Be honored. The artists in this book know that it is good to make art and they make good art. Through their work they demonstrate their faith in the product and the process. For some of them, art making is their anchor, in the turbulent world of helping professions. For some, images come in response to their clients. For all of them, making art deepens and enriches their lives. Working With Images: The Art of Art Therapists is a presentation of artworks and contextual essays by professional art therapists. This book is foreworded by Don Siedien and includes an introduction that addresses the structure, rationale and intent of this book. The introduction is followed by the artist-therapists' contributions. Each art therapist's selected artworks are presented on one full page in the text. Immediately following the art piece(s) is a brief biographical sketch, a photo of the art therapist and his or her artist's statement. From the very beginning of the art therapist profession in the United States there has been steady discussion of the relative importance of the 'artist' aspect of art therapies' professional identity. In the thirty years that the American Art Therapy Association has been in existence there have been few other topics that have generated as much interest and debate at the annual national conference. Over the past several years there has been growing interest in re-igniting our artistic passions and welcoming them back into our professional identity. This movement has been evidenced by a number of conference papers and workshops and professional journal articles focused on examining the integration of the artist and the therapist aspects of our work. Working With Images: The Art of Art Therapists presents art therapists as committed and serious, fine artists. This book will be a significant contribution to the literature, and identity, of the art therapy profession.

A CD-ROM which has over 500 images that can be used for the activities in the book is also included. In the introduction, the author articulates several strong reasons for using images in the language classroom. He also provides a brief history of the image in language teaching, along with some tips for finding images to use. The rest of the book is divided into two parts: one organised around activity types, the other arranged by image type. Chapter 2, interpreting images, invites students not only to describe pictures, but also to use their own thought processes. This chapter has some unique activities, including 'Out of focus', where students look at distorted pictures and attempt to determine what the original image was. In Chapter 3, Creating images, students are put in touch with their creative sides through drawing, photography and collages. Chapter 4, Imaging, is the final chapter in the first section of the book. It involves students' imaginations, engaging their mental imagery. In 'Questions to a portrait', students look at a and generate a series of questions to ask, along with possible answers. The second section of the book begins with Chapter 5, Signs, symbols and icons. Here, students explore masks, stamps, hand gestures, flags.

Visual methods such as drawing, painting, video, photography and hypermedia offer increasingly accessible and popular resources for ethnographic research. In Working Images, prominent visual anthropologists and artists explore how old and new visual media can be integrated into contemporary forms of research and representation. Drawing upon projects undertaken both 'at home' in their native countries and abroad in locations such as Ethiopia and Venezuela, the book's contributors demonstrate how visual methods are used in the field, and how these methods can produce and communicate knowledge about our own and other cultures. As well as focusing on key issues such as ethics and the relationship between word and image, they emphasize the huge range of visual methods currently opening up new possibilities for field research, from cartoons and graphic art to new media such as digital video and online technologies.

Working With Images: The Art of Art Therapists presents art therapists as committed and serious, fine artists. This book will be a significant contribution to the literature, and identity, of the art therapy profession."-BOOK JACKET.

From Beethoven and Kafka to George Sand, Picasso and Agatha Christie, this compilation of letters, diaries and interviews reveals the profound fusion of discipline and dissipation through which the artistic temperament is allowed to evolve, recharge and emerge. 20,000 first printing.

In Working Images, prominent visual anthropologists and artists explore how old and new visual media can be integrated into contemporary forms of research and representation.

Examining the role of art therapy in the treatment of psychosis, this volume uses clinical material and many examples of clients' work, experienced practitioners in order to describe working with patients in a variety of settings.

This is the first book ever to be published on arts use in social work. Bringing together theoretical connections between arts and social work, and with practice examples of arts in micro and macro social work practice from around the world, the book aims to inspire the reader with new ideas. It provides specific skills, defines what is social rather than fine or projective art use, and explains the theoretical connection between art and social work. It has chapters from all over the world, showing how arts are adjusted to different cultural contexts. Section I explores the theoretical connections between art and social work, including theories of resilience, empowerment, inclusion and creativity as they relate to art use in social work. Section II describes specific interventions with different populations. Each chapter also summarizes the skills and hands-on knowledge needed for social workers to use the practical elements of using arts for social workers not trained in these fields. The third section does the same for arts use in community work and as social change and policy. Using Art in Social Work Practice provides theoretical but also hands-on knowledge about using arts in social work. It extends the fields of both social work and arts therapy and serves as a key resource for students, academics and practitioners interested in gaining the theoretical understanding and specific skills for using social arts in social work, and for arts therapists interested in using social theories.

This handbook presents new ideas in art therapy and practice, incorporates them into more established art therapy, and points to future developments.
